- **Bachelor of Engineering (B.E)** in Computer Science Engineering (**CSE**) from Chaitanya Bharathi Institute of Technology (CBIT) in 2017.

## Project Experience

- **ROYAL BANK OF CANADA** Sr.Technical Developer

### PROJECT DESCRIPTION:

The scope of project includes activities related to Maintenance and Development.

**Correspondent Advisory Services (CAS):** The CAS Conversion, also referred as the Onramp process by the Client. The goal of the Onramp project is to re-architect RBCs Name & Address (N&A) conversion process in order to improve the quality and reduce the cost associated with executing an incoming conversion. It handles multiple Migrations (Conversions) at a time. Process is simple and helps in saving time. In order to accomplish the above goal, RBC should convert the RIA firm's data into RBCs data Format, this is where CAS Conversion comes into picture.

**Key Technologies:** ASP.NET, .NET 4.5, JavaScript, WPF, MS SQL 2008/2017, C#, XML, HTML, SQL

**Responsibilities:**

- Responsible for planning, processing and performing all jobs in an efficient manner without assistance.
- Responsible for independently designing, coding, testing and database management by using C#, ASP.Net and SQL server.
- Designed database maintenance plans to set up core maintenance tasks to make sure that the database performs well, is regularly backed up in case of system failure and is checked for inconsistencies.
- Developing the Code and Unit testing as per the requirement.
- Involved in defect fixing and providing support during the Production.

**Certifications**

- **Microsoft Certified Professional (MCP) in C#.**
  - Certificate Number - G336 - 4174
- **Pega Certified System Architect (CSA) 7.1**

**Personal Details**

- **DOB** : 04/07/1995
- **Father Name** : Rajababu K
- **Current Location** : Bangalore

**Declaration**

I hereby declare that the information depicted above is true to the best of my knowledge and belief.

**Place:** Bangalore

**Date:**

**(Vishal Kandavalli)**
